Empathy

Lot of hate in the world, hey., What do you do? Do we flame each other, or talk to one each other like we're sister and brother

If you flame or shame someone's name or identity
the pain you cause has much more intensity
If you poke fun at someone's identity
then slither-away and say was just meant to be a joke'
that's a cloak, to cover false supremacy
a smoke screen to cover lack of empathy.....

Empathy Empathy

Empathy's not pity it's ability to see and feel
each others pain and struggles in our histories
It connects us, not rejects us, maybe key to the mystery
of how we stop the hate and violence in communities.

STOP hate and violence. STOP hate and violence. STOP

Final screen text. **FLAMED? REPORT IT OR SAFELY SELF-SORT IT**

Realign our brains

What to do what to do What to do and say If racist bullying comes your way.

If you face race-ism don't fear or freeze seize the moment, Call it out
complain say explain what you're doin' what you're sayin'
Don't flame or shame but re- frame the game
Sort out our doubts and realign our brains

Final screen text. **END RACISM REALIGN OUR BRAINS**

Unpack myths

Myths misinformation half-truths, hypocrisy, What do you do?

Put on your invincible mask and ask: ...

Say 'Hey what did you say what do you mean by that?
It needs to be unpacked How do you know that-that's a fact?

Say 'Hey it's not OK to at-tack like that
it creates a septic, toxic-habitat.
Let's talk it out, not-fire-flak, but have an
open honest, diplomatic chat

Final screen text **LET'S TALK IT OUT**

Flame dance

What to do what to do What to do and say If racism, bullying comes your way.

Same lyrics as 'Stop hate - try empathy', but with a dancer added

Final screen text. **EMPATHY IS THE KEY**

Bigots please explain

You know what we should do? We should get bullies and bigots to explain themselves, maybe have cuppa with them, if it's safe

What to do what to do What to do and say
If racist bullying comes your way. (x 2)

If you face race-ism don't fear or freeze seize the moment, Call it out
complain say explain what you're doin' what you're sayin'
Don't flame or shame but re- frame the game
Sort out our doubts and realign our brains

Explain what you're saying
Name your game Please explain
Please please explain what you're saying
No blame No shame let's reframe the game

Explain what you're saying Name your game Please explain
Explain what we're saying No blame No shame

Final screen text **BIGOTRY TALK IT OUT. SAFELY SORT IT OUT**

Hey its not OK

What to do what to do What to do and say If racism, bullying comes your way.

Say 'Hey it's not OK to treat people that way. How would you react if you felt attacked, put down, excluded, hacked and whacked. Hey it's not OK to treat people that way.'

Final screen text **RACISM, BULLYING, IT'S NOT OK**

Free speech

Free country, Free speech, right? But hate speech is against the law. What's the story? Rob, you're a lawyer (-

Freedom's a fantastic foundation for a nation.
The right to freely express our ideas and opinions is so important ..
But if you use that freedom to flame hate against someone's race or religion,
in public, that's against the law.
You can't have freedom without responsibility

Why's hate speech unlawful?

Hate speech , especially against minorities, can cause deep pain and spread fear and violence. That's why it's unlawful.
Words can be wonderful,... but words can be weapons that shatter societies.

Use words wisely

'Stop hate - try empathy' Rap

Final screen text **FREEDOM NEEDS RESPONSIBILITY'**

Power & Ability

*I got power and ability. Power to fight bigotry.
Power to deal with hostility I got power with humility.*

I'm my own person I'm just me
No colour can't define me
I'm a normal girl in a normal world yeah
and I'm just doing me
I got no time for negativity
No time for people hating on me
Colour's not a big disease. Colour's
something we all have you see

Chorus.

Racism and bigotry is stupidity,
We have the power and the ability
To beat bigotry, To be a bigger me,
Love and affection Is the epitome.
Horsepower, horsepower, Call me a stallion,
I was born overseas, But I'm Australian.
Love goes round and round, Then we go again,
Then we go again

End Screen Text. *POWER WITH HUMILITY*
